Work Experience

Restructuration of the course evaluation system / Télécom SudParis

 June 2017 - July 2017

Two-month project to create a **web application to summarize the students' feedback** about their courses. It was an interesting project because it requires an understanding of all users' needs (faculty staff, professors, students, etc.).

Internship project manager Information System / MékaPharm

 June 2016 - August 2017

Specification and realization of a pre-project to handle the customer service in an application. Required an understanding of the needs of each position in the company to adapt the system to them.

Education

Télécom SudParis (formerly INT)

 January 2017 - Today

Dual Degree in engineering with IMT-BS, specialization JIN (Video Games and Digital Interactions)
Main courses : Computer programming (C++, C#), Web architecture (PHP, Javascript)

Institut Mines-Télécom Business School (formerly Télécom Ecole de Management)

 September 2015 - Today

Common core in Business School

Main courses : Management, Human resources management, Marketing, Management control

Classe préparatoire ECS / Lycée Malherbe, Caen

 Septembre 2012 - Juin 2015

Baccalauréat Scientifique / Lycée Notre-Dame de Sainte-Croix, Le Mans

 Juin 2012

Projects and Involvement

Tramigo

 2015 - 2018

Development of a **cross-platform and web application giving real-time waiting time of public transportation** in some French medium-size cities by using OpenData. **Keolis has shown interested in our project in invited us to present Tramigo during their OpenData Days.**

Tramigo also **won a prize in the IMT Starter's Challenge Projet d'Entreprendre 2018.**

Tramigo is currently in standby due to the other associate's obligation to step aside for professional reason.

www.tramigoapp.com

Student representative at the Administration Board and the Education Comity of Institut Mines-Télécom Business School

 Octobre 2016 - Today

An formative experience understanding both students' issues and the administration's work in a public higher educational institution.

Involvement in the Paris seminar on free public transportations

 October the 12th 2018

Presented my reflections on free public transportation **in front of political representatives Paris mobility stakeholders.** My presentation was based on a call for contributions launched by the Paris City Council during the Summer 2018.

All my reflexions are available at : transports.ambroi.se

Campus Life Involvements

 2015 - 2017

Board and video game society President

IN&acT Treasurer, association against LGBT+ discriminations
